

The background is a complex, abstract collage. It features a variety of torn paper edges, geometric shapes like triangles and squares, and some faint, dark, scribbled lines. The colors are primarily black, white, and grey, with the text boxes adding vibrant pink, purple, and yellow accents.

Exploring organisational values, inclusive collaboration and team principles

through the power of

VISUAL ART

Hi, I'm Milly

MY EXPERIENCE

I have 10 years of facilitation experience working across sectors, environments, communities and organisations; from Senior Leadership teams to professional development networks; from science centres to youth-led charities.

Most notably, I worked as a Lead Facilitator on the D&I training programme for CHICKENSHEd, a pioneering organisation in inclusive practice, delivering workshops in person and online across the UK and internationally, championing meaningful creative learning for organisational change.

My multi-faceted background in theatre, art & design, film making, creative producing, community project facilitation, mentoring and corporate training delivery has created a vast portfolio of experience, that enables me to bring creatively dynamic and layered approach to each collaboration.

What is the power of using 'visual art' in a team learning and development context?

The practical and intentional use of art mediums/materials helps us to express ideas and reflections in an accessible and engaging way. The method takes conversation and strategising away from bullet points on a flip chart and into a more dynamic and generative realm, for lasting impact and deeper insights.

WHAT THE WORKSHOP INVOLVES

Visual art is very powerful tool for exploring organisational values, inclusive collaboration and designing your 'team charter'. I offer a **hands on session that brings ideas and reflections to life in real time in the space**, through the artwork created, and allows everyone to really **embody the learning** through the **inclusive and playful 'making' process**.

Activity examples...

- **Collage/mood boarding to explore leadership styles**
- **Creating collaborative cut out artworks that explore key organisational values and processes**
- **Playful visual scribing tasks exploring how to express actions and behaviours through visual icons to build a visual team charter**
- **Creating mini collective installations and low-fi sculptures to explore dynamics of co-creation**
- **Reflective conversation for each exercise to flesh out key learning points and ideas**

CLIENT/PARTICIPANT FEEDBACK

'What an enormously engaging session that was. I found your facilitation of the process truly impactful and I believe all of us took away significant personal learnings for our development'

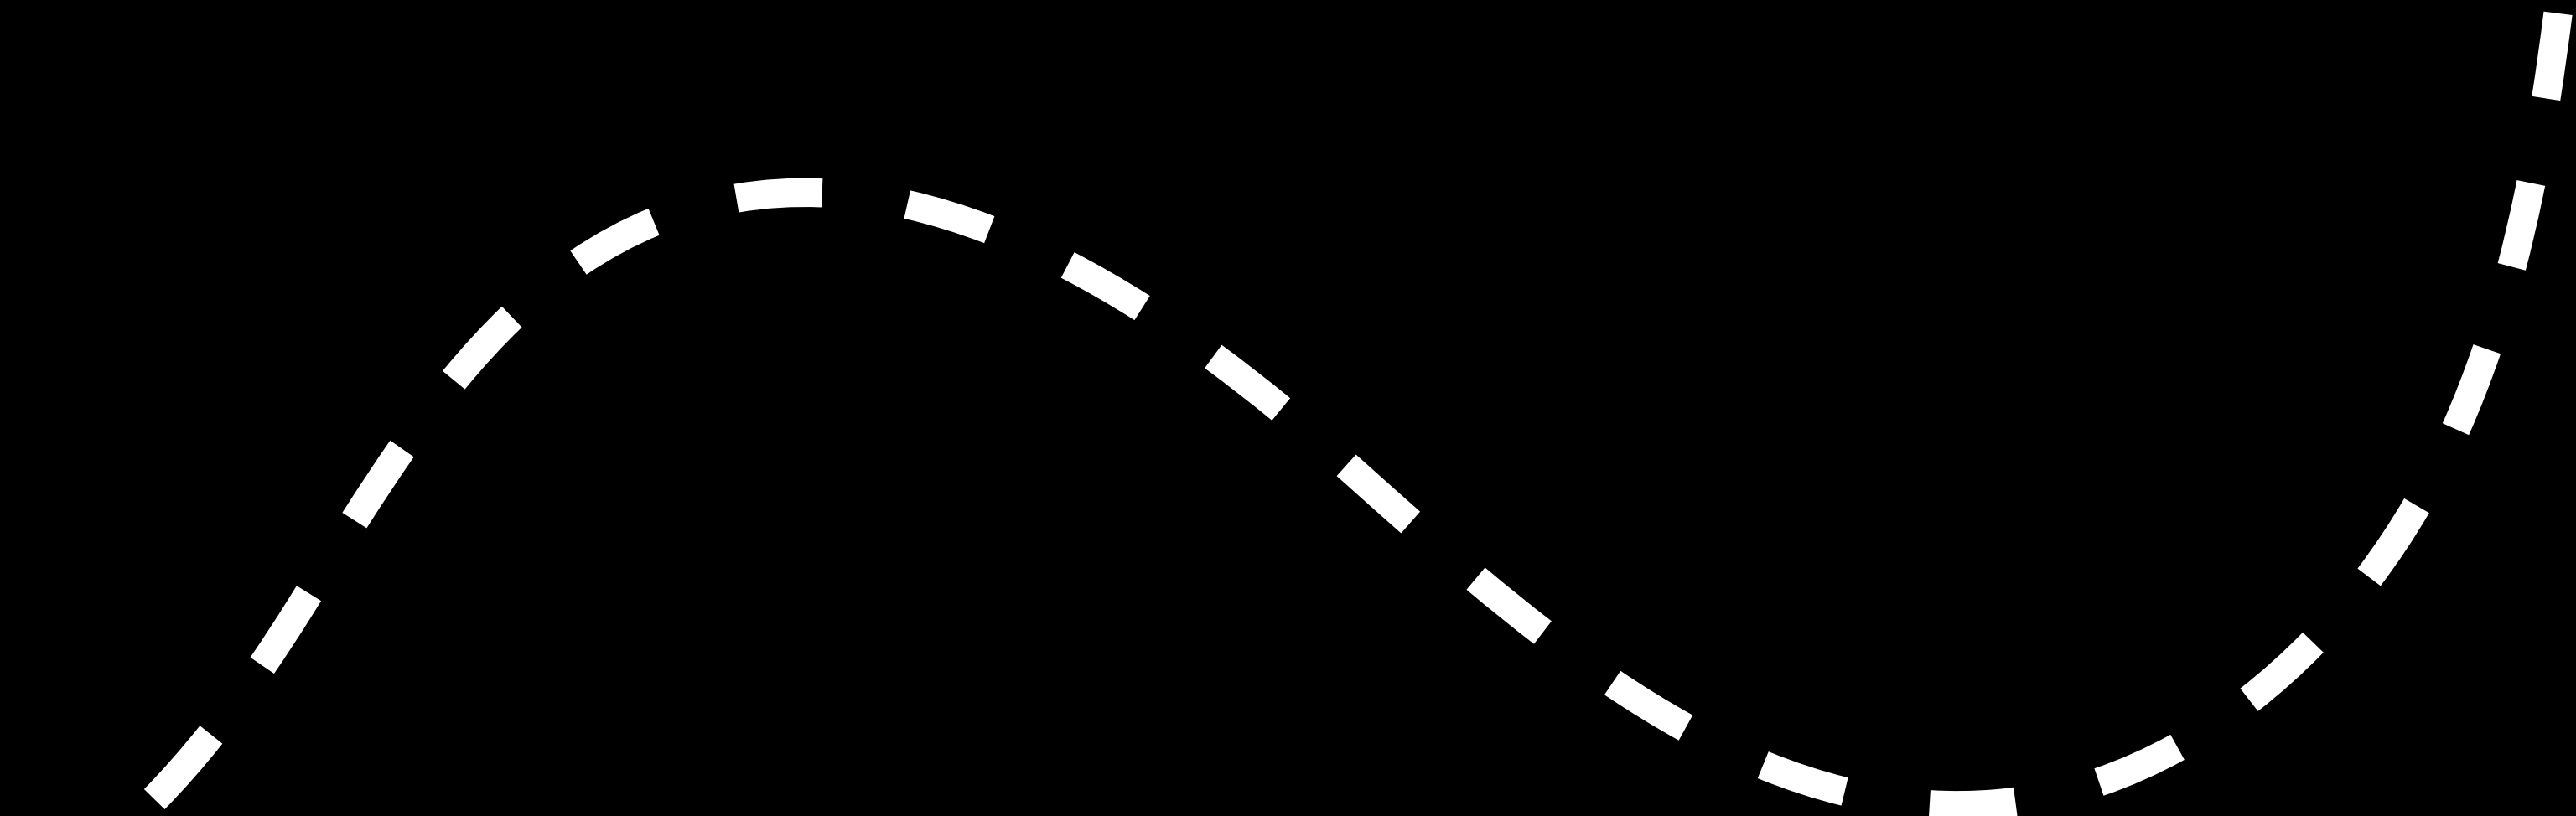

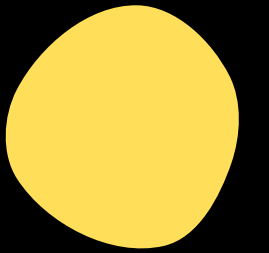

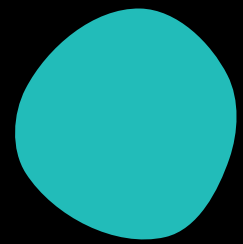

'I felt nurtured and inspired by the workshop and it gave me much food for thought. It was really refreshing to be involved in a visual art creative process that focused on collaboration and connection building. Thank you for sharing your ideas with clarity and generosity'

'Milly's facilitation style is exceptional'

'I think for me the effectiveness of the collage exercise is still resonating. Building something that was really quite personal and then the absolute value of collaborating with another person to get their insights and to enhance the original work. I so enjoyed all stages of this exercise'

'The session was pure joy; enlightening, evocative and generative. I've done a lot of these training days with different organisations I've worked for and this was by far the most engaging one I've experienced'.
